**General Information (continued)**

Enter the Prior Calendar Year Average Total Number of Employees Eligible for Coverage: Include working owners if allowed by your association.

The number of employees means the average number of employees employed by the company during the preceding calendar year. An employee is typically any person for which the company issues a W-2, regardless of full-time, part-time or seasonal status or whether or not they have medical coverage.

To calculate the annual average, add all the monthly employee totals together then divide by the number of months you were in business last year (usually 12 months). When calculating the average, consider all months of the previous calendar year regardless of whether you had coverage with us, had coverage with a previous carrier or were in business but did not offer coverage. Use the number of employees at the end of the month as the "monthly value" to calculate the year average. If you are a newly formed business, calculate your prior year average using only those months that you were in business. Use whole numbers only (no decimals, fractions or ranges).

Enter the Prior Calendar Year Full Time Equivalent Total Number of Employees

For purposes of determining your number of full-time equivalent employee count, the number of employees means the average number of employees employed full-time (at least 30 hours/week in any given month), by the company on business days during the preceding calendar year.

In addition to the number of full-time employees noted above, for any month otherwise determined, include for such month the number of full-time employees divided by the aggregate number of hours of service of all employees who are not full-time employees for the month by 120. Employers should exclude employees who were seasonal workers who worked 120 days or fewer in the preceding calendar year.

United disclosure regarding producer compensation:

In some instances, we pay brokers and agents (referred to collectively as "producers") compensation for their services in connection with the sale of our products, in compliance with applicable law. In certain states, we may pay "base commissions" based on factors such as product type, cost of coverage, group/company size and number of employees. These commissions, if applicable, are reflected in the cost of coverage. In addition, we may pay bonuses pursuant to programs established to encourage the introduction of new products and provide incentives to achieve production targets, persistency levels, growth goals or other objectives. Bonus expenses are not directly reflected in the cost of coverage but are included as part of the general administrative expenses. Please note we also make payments from time to time to producers for services other than those relating to the sale of policies (for example, compensation for services as a general agent or as a consultant).

Producer compensation may be subject to disclosure on Schedule A of the ERISA Form 5500 for customers governed by ERISA. We provide Schedule A reports to your association as required by applicable federal law. For specific information about the compensation payable with respect to your particular coverage, please contact your producer.

By signing below, I attest to the accuracy, truthfulness and completeness of the information provided herein. I understand that any misrepresentation or fraudulent statement may result in rescission of the group's Association Health Plan coverage, termination of coverage, an increase in payment amount retroactive to the coverage date, or other consequences as permitted by law.
