Medical and Rx Plans

MEWA

- 1 Primary Care Physicians include General Practice, Family Practice, Internal medicine, Obstetrics-gynecology, and pediatrics.
- 2 This tier of benefits applies to UnitedHealth Premium Tier 1 Designated Providers. Please visit myuhc.com for details
- 3 This tier of benefit applies to Physicians that are not UnitedHealth Premium Tier 1 Designated
- 4 Per Occurrence Deductibles are prior to and in addition to any required deductible and coinsurance.
- 5 "Embedded" deductible means once an individual meets their portion of the deductible, services are paid for that person without the entire family deductible being met.
- 6 Copayments will be required after the deductible has been met and will continue to be required until the annual out-of-pocket maximum is met.

The UnitedHealthcare plan with Health Savings Account (HSA) high deductible health plan (HDHP) is designed to comply with IRS requirements so eligible enrollees may open a Health Savings Account through Optum Bank, Member FDIC. The "HSA" refers generally to the UnitedHealthcare HSA product, which includes a HDHP, although at times "HSA" may refer only and specifically to the UnitedHealthcare Health Savings Account, provided in conjunction with Optum Bank and not to the associated HDHP. The UnitedHealthcare plan with Health Reimbursement Account (HRA) combines the flexibility of a medical benefit plan with an employer-funded reimbursement account.

Please note: The information in this grid is provided for informational purposes only and is not intended for use as a contract. For a complete listing of coverage and exclusions, please refer to the Certificate of Coverage or talk to your UnitedHealthcare representative for additional details that could impact the benefits. Different UnitedHealthcare plans may have varying approaches to whether pharmacy costs are included or excluded from the medical deductible.
